

# **ELECTION MATERIALS**

**2011**

**Illinois Great Rivers Conference  
The United Methodist Church**

## ELECTRONIC VOTING INSTRUCTIONS

Again this year we will use electronic keypads to register our votes during the Annual Conference session. This system will be used for both legislative items requiring a Yes/No vote as well as electing six clergy and six lay delegates for General Conference, and additional six lay and six clergy for Jurisdictional Conference and two additional lay and clergy alternates for Jurisdictional Conference in 2012.

**Picking up your keypad:** Unlike previous years, keypads will be picked up as part of the registration process outside Hall C, and members will keep them through the duration of annual conference. This is necessary in order to properly assign clergy keypads to clergy and laity keypads to laity. Persons who have pre-registered will also need to pick up their keypad outside Hall C.

**Separate channels for laity/clergy:** In order to ensure laity vote for laity and clergy only vote for clergy, your keypad will have a colored dot. All laity keypads will either have a red or blue dot; all clergy will have a yellow or green dot. When a clergy vote is taken, laity keypads will be inactive and during laity votes, clergy keypads will be inactive. When a vote is taken on a question requiring a Yes/No response, then all keypads will be active and capable of registering a vote.

**Candidate numbers:** All clergy candidates are four-digit numbers beginning with the number "1." All laity candidates are four-digit numbers beginning with the number "2."

**Use the ballot worksheet:** In order to facilitate your voting, you are strongly urged to use the ballot worksheets included in the pre-Conference workbook. The worksheets allow one to make their selections and have their numbers ready to enter when Bishop Palmer calls for a ballot.

**Voting Process:** On the first ballot, you will enter six four digit numbers using your keypad. Candidate numbers will be entered one candidate position at a time. Candidate numbers are included in this green election section. Candidates that are nominated from the floor will be assigned a four digit number, and the bishop will announce those numbers to you. When you enter a candidate number, for example "5555" for the number for candidate Jane Doe, the number you enter will be displayed on your

handset's screen. When you press the "Send" button your selection will be wirelessly transmitted to a computer that will record all votes and tabulate the final results of each ballot. These results will be checked after each ballot and then announced by the Bishop. All of your votes will remain private.

Every vote taken throughout each session of conference will be conducted using electronic voting. Each time, you'll have 30 seconds to convey your vote. If you don't want to participate in a particular vote, don't push any buttons during the 30 second voting interval; if you make a mistake in voting, simply vote again. The system will tabulate the last vote that you enter. If you input an incorrect number during the voting and you see it on the keypad screen before you press send, and would like to change it press the DEL button on the upper-*left* to remove one number at a time.

If you inadvertently turn your handset off by pushing the power button in its lower-**right** corner; push this button again to turn your handset back on. Pushing any of your keypad's other buttons will have no effect and will be treated as invalid.

When you leave the conference general session for your final departure from the conference, place your handset in one of the boxes near the exit. If you forget to turn in your handset, we will follow-up with you after the conference and ask you to return it.

Every handset will be tested before the conference, so the probability of a handset failing is very low. That said, if pushing your handset's 1 button or 2 button during a vote does not produce the word "Received" on its display to confirm that your vote has been tabulated, please raise your hand; a member of the hospitality team will quickly provide you with a paper ballot to record your vote, and you'll be issued a new keypad. We don't expect this to happen, but are prepared for this eventuality.

**Spoiled ballots:** Every effort has been made to minimize the amount of spoilage on a ballot. If a member enters an invalid number, that individual vote is invalidated but all valid votes registered on that ballot are counted. Likewise, a member entering an invalid number (such as clergy voting for laity or laity voting for clergy) will only spoil that individual vote. Any remaining valid votes are counted. Members voting for less than the number to be elected will also have their votes counted and the only votes failing to register are those where they have not voted.

**Issues during the session:** If you have any questions regarding the electronic voting systems or procedures, please contact a member of the hospitality team or visit the electronic voting information table near the communications table inside the conference hall. Those individuals will also be wearing blue polo shirts.

**The keypads are safe:** If you're wondering how much radio energy is used by a handset to convey your vote wirelessly, it uses half the power of a typical cell phone, and transmits for only a brief instant after you vote by pushing the 1 button or the 2 button, using the same frequencies as Wi-Fi wireless internet access.
